Extra Heavy Duty - D Size

Starmax Zinc chloride batteries come in AAA, AA, C, D, and 9V sizes. They are 1.5 volts and range in capacity from about 500mAh to 3000mAh. They are designed for low-drain applications, such as powering small electronic devices. They are usually non-rechargeable and have a shelf life of about three years. For your low-drain products choose the right battery batteries. Zinc-Chloride technology is perfect for your clocks, radios, calculators and remote controls.

Top Performance

- High quality Zinc-Chloride technology ensures long life
- Lightweight and long shelf life up to 3 years, making them an ideal choice for long-term storage
- They are non-rechargeable, single-use batteries and can store between 1.5 and 1.8 volts of energy

Ease of Use

- Low cost and wide availability
- The Color make recognition of battery sizes easier
- Easy-to-understand language-free user instructions
- Low maintenance and don't require regular charging or maintenance

Environmentally Responsible

- Starmax ZnC batteries contain 0% harmful heavy metals – **No Mercury**
- Non-toxic, making them a safe and environmentally friendly choice
- No leakage or deformation up to 50° C / 122° F
